Chapter 1

Front Matter

Chapter 2

Dominium Documentation Corpus Book v0

2.1 Current Docs, Archive Archaeology, Conversation Synthesis, and Reconciliation Guide

Publication date: 2026-05-28

2.2 Authority and Non-Promotion Notice

This book is DERIVED and advisory. It is not canon. It does not promote archive or conversation-derived claims into current repo authority. Canon impact, contract/schema impact, implementation impact, release impact, and queue impact are unchanged.

2.3 How to Read This Book

Read current authority first, then use archive and conversation material as provenance. Use contradiction, staleness, decision, and promotion registers as review queues rather than as decisions.

2.4 Source Hierarchy

1. 'docs/canon/constitution_v1.md'
2. 'docs/canon/glossary_v1.md'
3. 'AGENTS.md'
4. Scope-specific canonical planning, semantic, schema, contract, release, and policy artifacts
5. Operational registries, projections, manifests, and generated evidence with intact provenance
6. Chat summaries, remembered transcript claims, and uncommitted planning notes

2.5 Corpus Snapshot

- Files represented: 5116
- Directories represented: 279
- Markdown files: 4671
- Archive/conversation files: 3221

Status: DERIVED

Promotion Status: not_promoted
Canon impact: unchanged
Contract/schema impact: unchanged
Implementation impact: unchanged
Release impact: unchanged
Queue impact: unchanged

Chapter 3

Current Project Orientation

This chapter orients the reader around current repo authority and the derived current project picture.

3.1 Start With Current Authority

Use ‘README.md’, ‘docs/README.md’, ‘AGENTS.md’, canon, glossary, current queue state, and foundation docs before relying on archive or conversation material.

3.2 Current Project Picture

See ‘_reconciliation/DOCS_CURRENT_PROJECT_PICTURE_v0.md’ for the generated reader map. The short version is: Dominion has a strong authority model; historical materials are useful but non-binding; broad feature scopes remain blocked until a stronger current queue source opens them.

3.3 Current Queue Boundaries

Broad Workbench UI, runtime module loading, provider runtime, package runtime, gameplay, renderer implementation, native GUI, and release publication remain blocked review areas.

Release impact: unchanged

Queue impact: unchanged

Chapter 4

Current Canon, Architecture, and Contracts

This chapter summarizes high-authority and authority-sensitive docs families.

4.1 Counts

- Canon files: 2
- Architecture files: 324
- Reference contract docs: 9
- Planning docs: 77

4.2 Rule

This book maps these docs but does not rewrite them. Canon/glossary and contract/schema authorities retain their normal precedence.

4.3 Alignment Surface

See ‘_reconciliation/DOCS_CANON_ARCHITECTURE_ALIGNMENT_v0.md’, ‘_audit/DOCS_AUTHORITY_MAP_v0.md’, and ‘_audit/DOCS_BINDING_SOURCE_MAP_v0.md’.

Canon impact: unchanged

Contract/schema impact: unchanged

Implementation impact: unchanged

Release impact: unchanged

Queue impact: unchanged

Chapter 5

Product, Runtime, Tooling, and Domains

This chapter groups current guidance and domain docs.

5.1 Counts

- Runtime docs: 97
- App docs: 41
- Development docs: 201
- Testing docs: 22
- Domain docs: 203
- Content/modding docs: 50

5.2 Interpretation

These docs are useful for orientation, but feature implementation still depends on current queue scope and stronger authority where applicable.

5.3 Reading Paths

See ‘_wiki/reading_paths.md’ and topic pages under ‘_wiki/topics/’.

Chapter 6

Archive Archaeology

Archive archaeology explains historical material without promoting it.

6.1 Archive Family Counts

```
Archive Family | Count
archive/refactor | 1379
archive/audit | 960
archive/conversations | 761
other/archive_unknown | 40
archive/restructure | 23
archive/blueprint | 22
archive/impact | 20
archive/post-canon | 5
archive/stray_root_docs | 3
archive/omega | 2
archive/prompts | 2
archive/repo | 2
archive/platform | 1
archive/specs | 1
```

6.2 Use

Use archive material for provenance, stale-claim detection, duplicate-shadow review, and possible later promotion candidates. Do not use it as current authority.

Chapter 7

Conversation Corpus Integration

The completed conversation corpus is represented as an advisory sub-corpus.

- Conversation corpus files: 761
- Existing conversation book: ‘docs/archive/conversations/_exports/Dominium_Conversation_Corpus_Book_v0.pdf‘
- Current role: design-intent and review substrate
- Promotion status: not promoted

See ‘_archive/DOCS_CONVERSATION_CORPUS_INTEGRATION_v0.md‘.

Chapter 8

Cross-Corpus Reconciliation

Cross-corpus reconciliation compares current docs, archive docs, conversation-derived outputs, and current repo authority.

8.1 Finding Counts

- Drift/contradiction review findings: 136
- Duplicate shadows: 21

8.2 Required Topics Covered

Topic | Classification
Project identity and purpose | current_repo_truth
Canon and glossary authority | current_repo_truth
Engine/game/runtime/product boundaries | consistent_but_review_required
Determinism, replay, and provenance | current_repo_truth
Process-only mutation | current_repo_truth
Law, authority, refusal, and capability model | current_repo_truth_with_review_needed
Pack-driven integration | current_repo_truth
Profiles over runtime mode flags | current_repo_truth
Workbench/AIDE/Codex/tooling role | blocked_scope_sensitive
Conversation corpus role | conversation_advisory_only
Release/setup/launcher/platform state | blocked_scope_sensitive
Renderer/UI/native GUI scope | blocked_by_current_queue
Provider/package runtime scope | blocked_by_current_queue
Gameplay/domain feature scope | blocked_by_current_queue
Timekeeping and 2038 resilience | conversation_advisory_or_docs_candidate
World, reality, civilization, and worldgen domains | authority_sensitive
Contracts, schema, and reference docs | contract_or_schema_authority
Testing, validation, FAST, and full-gate debt | current_repo_truth_with_debt_tracking
Current queue blocked areas | current_repo_truth

8.3 Where To Inspect Detail

- ‘_reconciliation/DOCS_REPO_TRUTH_CROSSWALK_v0.md’
- ‘_audit/DOCS_DRIFT_MATRIX_v0.md’
- ‘_audit/DOCS_CONTRADICTION_MATRIX_v0.md’
- ‘_audit/DOCS_STALENESS_AND_VERIFICATION_v0.md’

Chapter 9

Decisions and Promotion Roadmap

Decision and promotion surfaces are review queues.

9.1 Counts

- Generated contradiction/drift findings: 136
- Metadata/header hygiene candidates: 463
- Duplicate shadow review candidates: 21

9.2 Defaults

- Defer blocked queue scopes.
- Keep archive/conversation claims not promoted.
- Use later narrow docs-only promotion tasks for any live-doc changes.

See ‘_reconciliation/DOCS_DECISION_DOCKET_v0.md’ and ‘_reconciliation/DOCS_PROMOTION_QUEUE_v0.md’.
