Part I

Front Matter

Part II

Dominium Documentation Corpus Book v0

Chapter 1

Current Docs, Archive Archaeology, Conversation Synthesis, and Reconciliation Guide

Publication date: 2026-05-28

Chapter 2

Authority and Non-Promotion Notice

This book is DERIVED and advisory. It is not canon. It does not promote archive or conversation-derived claims into current repo authority. Canon impact, contract/schema impact, implementation impact, release impact, and queue impact are unchanged.

Chapter 3

How to Read This Book

Read current authority first, then use archive and conversation material as provenance. Use contradiction, staleness, decision, and promotion registers as review queues rather than as decisions.

Chapter 4

Source Hierarchy

1. docs/canon/constitution_v1.md
2. docs/canon/glossary_v1.md
3. AGENTS.md
4. Scope-specific canonical planning, semantic, schema, contract, release, and policy artifacts
5. Operational registries, projections, manifests, and generated evidence with intact provenance
6. Chat summaries, remembered transcript claims, and uncommitted planning notes

Chapter 5

Corpus Snapshot

- Files represented: 5116
- Directories represented: 279
- Markdown files: 4671
- Archive/conversation files: 3221

Status: DERIVED

Last Reviewed: 2026-05-28

Conversation Corpus Root: docs/archive/conversations/

Promotion Status: not_promoted

Canon impact: unchanged

Contract/schema impact: unchanged

Implementation impact: unchanged

Release impact: unchanged

Queue impact: unchanged

Part III

Current Project Orientation

This chapter orients the reader around current repo authority and the derived current project picture.

Chapter 6

Start With Current Authority

Use `README.md`, `docs/README.md`, `AGENTS.md`, `canon`, `glossary`, current queue state, and foundation docs before relying on archive or conversation material.

Chapter 7

Current Project Picture

See `_reconciliation/DOCS_CURRENT_PROJECT_PICTURE_v0.md` for the generated reader map. The short version is: *Dominium* has a strong authority model; historical materials are useful but non-binding; broad feature scopes remain blocked until a stronger current queue source opens them.

Chapter 8

Current Queue Boundaries

Broad Workbench UI, runtime module loading, provider runtime, package runtime, gameplay, renderer implementation, native GUI, and release publication remain blocked review areas.

Conversation Corpus Root: docs/archive/conversations/

Promotion Status: not_promoted

Canon impact: unchanged

Contract/schema impact: unchanged

Implementation impact: unchanged

Release impact: unchanged

Queue impact: unchanged

Part IV

Current Canon, Architecture, and Contracts

This chapter summarizes high-authority and authority-sensitive docs families.

Chapter 9

Counts

- Canon files: 2
- Architecture files: 324
- Reference contract docs: 9
- Planning docs: 77

Chapter 10

Rule

This book maps these docs but does not rewrite them. Canon/glossary and contract/schema authorities retain their normal precedence.

Chapter 11

Alignment Surface

See `_reconciliation/DOCS_CANON_ARCHITECTURE_ALIGNMENT_v0.md`, `_audit/DOCS_AUTHORITY_MAP_v0.md`, and `_audit/DOCS_BINDING_SOURCE_MAP_v0.md`.

Status: DERIVED

Superseded By: none

Stability: provisional

Authority Class: advisory_synthesis

Source Root: `docs/`

Conversation Corpus Root: `docs/archive/conversations/`

Promotion Status: `not_promoted`

Canon impact: unchanged

Contract/schema impact: unchanged

Implementation impact: unchanged

Release impact: unchanged

Queue impact: unchanged

Part V

Product, Runtime, Tooling, and Domains

This chapter groups current guidance and domain docs.

Chapter 12

Counts

- Runtime docs: 97
- App docs: 41
- Development docs: 201
- Testing docs: 22
- Domain docs: 203
- Content/modding docs: 50

Chapter 13

Interpretation

These docs are useful for orientation, but feature implementation still depends on current queue scope and stronger authority where applicable.

Chapter 14

Reading Paths

See `_wiki/reading_paths.md` and topic pages under `_wiki/topics/`.

Release impact: unchanged

Queue impact: unchanged

Part VI

Archive Archaeology

Archive archaeology explains historical material without promoting it.

Chapter 15

Archive Family Counts

Archive Family	Count
archive/refactor	1379
archive/audit	960
archive/conversations	761
other/archive_unknown	40
archive/restructure	23
archive/blueprint	22
archive/impact	20
archive/post-canon	5
archive/stray_root_docs	3
archive/omega	2
archive/prompts	2
archive/repoX	2
archive/platform	1
archive/specs	1

Chapter 16

Use

Use archive material for provenance, stale-claim detection, duplicate-shadow review, and possible later promotion candidates. Do not use it as current authority.

Part VII

Conversation Corpus Integration

The completed conversation corpus is represented as an advisory sub-corpus.

- Conversation corpus files: 761
- Existing conversation book: docs/archive/conversations/_exports/Dominium_Conversation_Corpus_Book_v0.pdf
- Current role: design-intent and review substrate
- Promotion status: not promoted

See _archive/DOCS_CONVERSATION_CORPUS_INTEGRATION_v0.md.

Release impact: unchanged

Queue impact: unchanged

Part VIII

Cross-Corpus Reconciliation

Cross-corpus reconciliation compares current docs, archive docs, conversation-derived outputs, and current repo authority.

Chapter 17

Finding Counts

- Drift/contradiction review findings: 136
- Duplicate shadows: 21

Chapter 18

Required Topics Covered

Topic	Classification
Project identity and purpose	current_repo_truth
Canon and glossary authority	current_repo_truth
Engine/game/runtime/product boundaries	consistent_but_review_required
Determinism, replay, and provenance	current_repo_truth
Process-only mutation	current_repo_truth
Law, authority, refusal, and capability model	current_repo_truth_with_review_needed
Pack-driven integration	current_repo_truth
Profiles over runtime mode flags	current_repo_truth
Workbench/AIDE/Codex/tooling role	blocked_scope_sensitive
Conversation corpus role	conversation_advisory_only
Release/setup/launcher/platform state	blocked_scope_sensitive
Renderer/UI/native GUI scope	blocked_by_current_queue
Provider/package runtime scope	blocked_by_current_queue
Gameplay/domain feature scope	blocked_by_current_queue
Timekeeping and 2038 resilience	conversation_advisory_or_docs_candidate
World, reality, civilization, and worldgen domains	authority_sensitive
Contracts, schema, and reference docs	contract_or_schema_authority
Testing, validation, FAST, and full-gate debt	current_repo_truth_with_debt_tracking
Current queue blocked areas	current_repo_truth

Chapter 19

Part IX

Decisions and Promotion Roadmap

Decision and promotion surfaces are review queues.

Chapter 20

Counts

- Generated contradiction/drift findings: 136
- Metadata/header hygiene candidates: 463
- Duplicate shadow review candidates: 21

Chapter 21

Defaults

- Defer blocked queue scopes.
- Keep archive/conversation claims not promoted.
- Use later narrow docs-only promotion tasks for any live-doc changes.

See `_reconciliation/DOCS_DECISION_DOCKET_v0.md` and `_reconciliation/DOCS_PROMOTION_QUEUE_v0.md`.
